Extracellular Nucleic Acids and their Potential as ...

Abstract. Extracellular nucleic acids (NAs), both DNA and mRNA, have been found to exist in many biological media, including serum, plasma, saliva, urine, semen, milk and

Detection of extracellular tumor-associated nucleic acid ...

This invention relates to detection of specific extracellular nucleic acid in human or animal blood plasma or serum associated with disease.

Patent CA2849354A1 - Stabilisation and isolation of ...

The present invention provides methods, compositions and devices for stabilizing the extracellular nucleic acid population in a cell-containing biological sample

Stabilisation and isolation of extracellular nucleic acids ...
