[Picornavirus Home](#)

Welcome to the home of Picornaviruses. The family Picornaviridae belongs to the order Picornvirales and currently consists of 80 species grouped into 35 genera (as

[Picornaviruses- Enteroviruses and general features of ...](#)

Table 1 Genera of Picornaviruses; Genera that infect humans: Enterovirus, Polio, Coxsackie A and B, Echo. Other enteroviruses. Diseases of the human (and other

[Rapid detection of respiratory picornaviruses in ...](#)

Background. Respiratory picornaviruses (enteroviruses and rhinoviruses) are commonly cited as causes of self-limited upper respiratory tract infection.

[Avian picornaviruses: Molecular evolution, genome ...](#)

Avian picornaviruses: Molecular evolution, genome diversity and unusual genome features of a rapidly expanding group of viruses in birds

[Enterovirus - Picornavirus](#)

The Enterovirus type species is Enterovirus C. The three poliovirus serotypes now belong to the species Enterovirus C and the species Poliovirus no longer exists.

[Rhinovirus - Wikipedia](#)

The rhinovirus (from the Greek rhis "nose", gen rhinos "of the nose", and the Latin y rus) is the most common viral infectious agent in humans.

[All the Virology on the WWW: Educational Resources](#)

Graduate Programs in Virology. This is a list of Virology-specific graduate programs, or programs with a virology emphasis. Additional lists of educational

[RNA virus - Wikipedia](#)

An RNA virus is a virus that has RNA (ribonucleic acid) as its genetic material. This nucleic acid is usually single-stranded RNA but may be double-stranded RNA.
