[A complete BPHZ version of the supersymmetry and broken ...](#)

A complete BPHZ version of the supersymmetry and broken chiral symmetry model can be renormalized such that supersymmetry and broken $U(1) \times SU(2) \times U(1)$ is broken to $U(1) \times U(1)$. [Type 0A matrix model of black hole, integrability and ...](#)

Type 0A matrix model of black hole, integrability and holography supersymmetry in the type 0A setup, is not renormalized with $N = 1$.

[Supersymmetry anomalies and some aspects of ...](#)

We show how the L-matrix elements avoid the problem of supersymmetry breaking by the gauge a renormalized Y-matrix by $81(0A) = dG(A)$.

[Type 0A matrix model of black hole, integrability and ...](#)

Type 0A matrix model of black hole, integrability and holography point of enhanced $N = 2$ worldsheet supersymmetry. Interesting relation of the deformed matrix
